

Warranty regulation for guttanit+ corrugated sheet

We grant the following warranty on the **guttanit+ corrugated sheet** from the date of sale when using original gutta products and following the installation instructions as follows:

- 15 years** on water impermeability and rotting resistance
- 10 years** for UV stability
- 10 years** on hail resistance*

Water impermeability:

In case of water permeability, Gutta Werke will provide free replacement** of the panels and accessories.

This excludes installation costs..

Hail resistance:

Breakage due to hail, as defined in this warranty, occurs when, in a hail simulation described below*, there are at least 5 holes in the surfaces in 10 impact tests on different points of the surface.

* Performance of the hail simulation:

Balls made of polyamide PA 66 with a diameter of 20 mm (weight approx. 4.5 g) are fired at the weathered surface at a velocity of 21 m/s, corresponding to a kinetic energy of 1 joule, at room temperature.

Requirements

- Use of the product in the European Union.
- The product must remain in its original condition and must not be deformed or altered.
- Transport, storage, cleaning, processing and installation are in accordance with the state of the art and the current technical documents such as gutta's installation and maintenance instructions.
- The product must not be exposed to any adverse chemical effects and the formation of heat dust must be avoided by design.
- The installation was carried out exclusively with original accessories.
